The Hongkong Telegraph.

HONGKONG, MONDAY, SEPTEMBER 21, 1891.

Will the *China Mail* for once exhibit the courage of its opinions by giving the name of the "certain speculator" for whose special benefit it alleges \$45,000 of public money were misappropriated for building a useless police station at Kennedy Town? Our contemporary says that this large amount was "money practically thrown away for the purposes of facilitating the schemes of a certain speculator." All this may be quite true; but as it involves a most serious charge against the high Government officer, on whose recommendation and advice this building was constructed, and who is, of course, responsible for such action, it seems only fair that the *China Mail* should formulate its indictment in straight-forward and comprehensible language, and also give the names of the persons so freely charged with most scandalous jobbery of a kind that usually leads to a criminal court. If it is true that a Government

official was bribed, or otherwise "got at," to waste all this public money for the benefit of any speculator, then it is the bounden duty of the Government to investigate the matter and have their erring servant properly dealt with; if it is not true, then the Editor of the *China Mail* ought to be criminally prosecuted for a foul and cowardly libel. Was not Mr. J. M. Price the head of the Public Works Department when this police station was devised, and was not he responsible for it? If not, who was? And who were the other official conspirators mixed up in this nefarious transaction for the benefit of that "certain speculator" who seems to be our contemporary's special *vis a vis*? The *China Mail* has made a most serious and direct accusation against the honor and honesty of certain officials in the Government service whose identity can easily be ascertained—bribery, corruption and misappropriation of public money—and the Hongkong Government should at once investigate the same.

## LOCAL AND GENERAL.

HALF the world doesn't want the other half to know how it lives.—(New version, specially adapted for Hongkong.)

FIRST Actress—Did you ever have an attack of stage fright? Second Actress—Yes, once, when I thought my sawdust was leaking.

WE are informed by the Agent of the Messageries Maritimes that the Company's steamer *Oron*, with the next French mail, left Saigon yesterday at 2 a.m., for this port.

POPE LEO XIII is now in his eighty-first year. His eyes are still remarkably black and brilliant, but aside from this he has every appearance of an infirm old man.

IN the public bar alone of the big Australia hotel, Sydney, they took over £500 for drinks the other week. Bar-men and not bar-maid are employed at the Australia.

WHAT price now for Canadian public and political morality as a pleasant foil to the "Republican corruption" of the United States, so continuously referred to in the English daily press?

LADY (at race course)—Don't you think it is cruel to race horses that way this hot weather? Jockey—Race'em how, mum? "Making them go to fast." "Why, mum, the faster they go the quicker they get through."

MISS JEWELL DEANE, who has been lucky enough to effect and gain possession of an unparalleled combination of talent in her "15-to-date" Company, is now doing splendid business in the Indian towns, prior to paying China a visit. She hopes to arrive here about the latter end of December next.

MR. HARRY PYKE, who, it will be remembered, was a shining light in the ranks of the Stanley forces during their sojourn here, has, succeeded from Thespis and has joined the fourth estate, and is now flooding brightened Penang with the light of his genius through the medium of the *Penang Gazette*. We wish the genial "Harry" all success in his present elevated sphere.

AT THE HORSE REPOSITORY.  
Indignant bus-driver—"I no wanche this piggy any more." Bustle Boss—What thing? You catches good wages?  
R.—Yes, but boy stop behind-side catches all moonlight, no get chance light now.  
A boot and bus-driver become entangled somehow, and all was chaos for the best ten minutes.

THE *Amoy Gazette* of the 14th inst. says—"It is with deep regret we have to announce the death of Mr. A. A. Margal, Editor and Proprietor of this Printing Office, who departed this life at 1:30 p.m. yesterday of heart disease. This deceased gentleman was 53 years of age and had been in this colony close on 23 years. He was highly respected by all who knew him. His funeral, which took place at Kowloon Cemetery at 7:30, this morning, was numerously attended."

HERE is a quaint epitaph, which an old gentleman who died recently in the United States devised for himself:

Beneath this soil, and under these trees  
Lies all that is left of Henry Pyke;  
His soul has floated out and gone to God.  
But this looked too much when written out for his epitaph, so he ran it into one line: "Here lies the pod; the Pease are in Heaven."

MR. JUSTICE GRANTHAM established an excellent precedent at the Leeds Assizes a few weeks ago, in the case of a defendant who was tried and convicted of a criminal offence, on a charge of publishing defamatory statements in a paper called the *Sheffield Anarchist*. His lordship held that, as no actual injury had been done to the prosecutor, no personal punishment would be inflicted on the defendant, who would merely be bound over in the sum of £25 not to libel the prosecutor again. And this is commensurate.

WE learn that the confidence of the general public in the National Bank of China is so strong that the third call of £2 per share which was lately issued has been met with unusual promptness by the shareholders throughout the Empire. Holders of National scrip in Amoy, Yokohama, Shanghai and Yokohama: "Without a single exception have met the demand, as also have all the influential holders in Hongkong. With the proper launching of this promising institution let us hope that a new era of prosperity will be inaugurated."

The general public, or at least that portion of it which has the proud privilege of belonging to the A.D.C., will perhaps be pleased to learn that their erstwhile instructor in the light fantastic art, Mr. Frank Fletcher, (who paralysed the people as the "Duke" in "The Gondoliers") is now playing with his company somewhere on the hills in India. He has good reason with him too—the indomitable Harvey brothers, two *dansesurs*, two white-black "niggers" and many other attractions "too numerous to mention." Mr. Fletcher hopes to gladden the hearts of his Gondolier company by appearing in Hongkong about the beginning of January next.

WE are requested to state that the head practice dance of Garrison Club will be held on Wednesday the 23rd inst.

THE Superintendent of the P. & O. S. N. Co. informs us that the steamer *Rohilla*, with the next English mail, left Singapore for this port at 8:30 p.m. yesterday.

THE Melbourne *Age* speaks of "the popular wife of Sir George Bowen." Her Sir George was an unpopular wife as well! He was always a gay old dog.

NEW COMPUTATION.  
10 cents one drink,  
10 drinks one drink,  
10 drinks six months.

H.M.S. *Tweed* left the slip at Hungham this morning, having undergone partial repairs. The Naval authorities are awaiting orders from home as to her ultimate disposal.

JUSTICE Manning (N.S.W.) thinks it should be made penal for a man trading alone to attach "and Co." to his name. How would old "Bill" Manning's suggestion affect certain traders in Hongkong if it were put to a point.

SECRETARY Windom, of the United States, one of the greatest financiers of his time, left a fortune of only \$200,000. He preferred to devote himself to the interests of his country rather than to the accumulation of great wealth for himself, and the country honors his memory for it.

FAIRY FISHER, a sailor belonging to the German ship *Elita*, was charged, before the Magistrate today with having been drunk and disorderly and creating a disturbance. Poor Fritz was minus the \$2 fine imposed, so he is now taking ten days out at the expense of the State.

EX-ORATOR Colton from the Hongkong P. W. D. was a member of the Australian death-or-dysentery Contingent which Mr. Dalley sent to the Sudan. Colton's medal for this feat of arms was uncared in a pawn-shop or some such place the other day. Of such is the glory of war.

A GRACIOUS compliment was paid to Captain Helen E. & A. Co.'s steamer *Guthrie* last evening by the passengers from Australia on board that vessel, in the shape of a complimentary address, which handsomely bore testimony alike to the courtesy and kindness of the Captain and his officers and to the comfortable qualifications of the steamer.

AN Australian exchange observes that "the pinnacle of human assurance has been scaled by a Melbourne ex-police-man, who was superannuated on pension of £222 in 1885, and recently put in a claim for arrears of salary nearly £4,000—earned during his eight years of retirement. We simply reproduced this item as a tip for the benefit of our local 'Peelers'."

THE devil has been teased by the tailors and is now giving the barbers a turn. Hardly a day passes now but some members of that one-time honorable profession are up before Mr. Wise charged with gambling in some shape or form. Three more were charged to-day on the same count—two barbers and two being common gamblers. The *tailors* were sent to goal for six weeks, and the other two having \$5 each, were set at liberty.

M. COMTE, French Minister of Commerce, in a recent speech in the Chamber, fluted at the withdrawal of the proposition of the princely pretensions. He said that the republic was open to all, but that new-comers must obey, not command. He believed that the Workmen's Pension bill as at present planned would be carried out. In regard to the military forces of the country, he thought that the 100,000 soldiers of France could be found for organization.

SAYS a San Francisco contemporary:—"The *Marlow* and *Alibi*, venerable tubs, are to be sent to China. Small craft are very useful there for running up the rivers, but they should be of modern construction and armament. Next winter, among other things, Congress should provide for two or three small smart gun-boats for service on the Asiatic station. They could be constructed cheaply, built in San Francisco for exclusive service in Pacific waters."

THE proposed penalty for making a false declaration within the provisions of the Land Bill now before the New Zealand Parliament is imprisonment for "not exceeding five years" and forfeiture of lease or license. For proposing to accept any bribe to abstain from competing for land (blackmail, short) a term not exceeding six months, or a fine up to £500, for actually accepting bribe, two years and £500. How would a law of this sort suit certain Hongkong land-grabbers?

ALUMINUM, says the New York *Maritime Register*, is heralded as the next metal to be used in shipbuilding. It is exactly what is wanted for that purpose. It is stronger than steel, and so light in weight that the possibilities it offers by giving comparatively increased strength with a most wonderful diminution of weight, are so great as to make anything probable in the direction of its use. This, however, is growing less, and it is promised will come within the reach of shipbuilders.

AT the instance of P. C. Tom Pepper an unlicensed junk master, named Li Kai was charged before Captain Hastings the Harbour Office this morning with having furnished particulars to the authorities regarding the quantity of arms and ammunition carried on board his junk. The defendant, who was something of a Hongkong lawyer, stated that he did not think that "stink-pots" (part of the ammunition complained of) came within the scope of the Ordinance dealing with the prohibition of dangerous arms. This, however, the Harbour Master could not swallow and fined the licensee £12 for his insolence with a caution, alternative of two months' fine, board. The fine was paid and the "stink-pots" were sent to the police magazine.

THE steamer *Gambler* which sank within seven minutes after being hit by the steamer *Baby* in Hongkong Bay (Melbourne) in the early morning of the 28th inst., with a loss of over twenty lives, was once well known in Hongkong and along the China coast as the *Ocean*. She was built at Dumbarton in 1876, and was engaged in the China trade under the command of Captain Jacques, now of the Mutual Shippers Co. In 1878 she was sold to the old A. S. N. Company of Sydney, and ran between the Colonies and Hongkong, with Capt. Webber in charge, and Mr. John Mitchell, at present local agent, as second-in-command. "Battered" and "Swire" as she was called, in 1885, she was purchased by Messrs. J. and A. Brown of Newcastle, N.S.W., and was for some time on this coast under command of Capt. R. E. Brown, who will be remembered in Hongkong. The *Ocean* sank and perished in 1885, after undergoing extensive alterations was renamed the *Gambler*, and since then has had a successful career in the Australian coasting trade. At the time of the collision, the *Gambler* was commanded by Capt. Bell, whose first voyage it was to her.

Mrs. James Brown Potter threatens vengeance against the newspapers that have stated she married Kylie Bellew in Hongkong.

THE return of the number of visitors to the City Hall Museum for the week ended September 20th, are—Europeans 131, and Chinese 1,607, total 1,738.

"No, missus," said Line Shing, sadly shaking his classical frontpiece, "no you can makee kid his dolla-a-half. My blong shoemaker, no blong shoemaker."

THE Duchess of Fife is said to be attracting admiration from all England and Scotland by her conduct as a model mother. Following the example of Queen Victoria and the Empress Frederick, she is nursing her own baby. And still the sun shines!

THE other week in a perjury case at Carcass (N.S.W.) police-court, the accused was sitting on the right of his solicitor, at whose left stood the prosecuting attorney. The latter, in addressing the Bench, referred to "the rogue at the side of my friend." "At which side?" enquired the defending lawyer.

It is gossiped that the Acting Governor has appointed under the provisions of the *Medical Ordinance*, No. 5 of 1889, Dr. John Milford Atkinson, Superintendent of the Government Civil Hospital, to be Inspector of Vaccination and Public Vaccinator, whose duty it shall be to examine gratuitously children on whose behalf are claimed certificates of unfitness for successful vaccination.

EXPERIMENTS have been in progress for some time to establish telephonic communication between London and New York. Up to the present the attempt has not been successful, but it has been found feasible to transmit sounds, though they are unintelligible, and it is believed it is only a matter of perfecting the mechanical means to establish perfect telephonic communication between the two countries.

A LOCAL book-seller was asked the other to-day to describe an *édition de luxe*. After a moment's thought he rose to the occasion and said:—"You know what a rabbit is? Well, a donkey is an *édition de luxe* of a rabbit." To apply this illustration to journalism, the *China Mail* is an *édition de luxe* of a newspaper—especially when "Brownie" is at fever heat, as in last Saturday's issue.

THE Consul for Spain received the following telegram from Manila this morning:—"A typhoon indicated this morning appears to be situated about 16 degrees near (7) to the island. It is probable that it may pass through the northern region."

THE *Stam Mercantile Gazette* of the 12th September says:—"A rumour has been in circulation for the last few days that the French had seized the Governor of Battambang, and had destroyed the telegraph station. The news is said to have reached Bangkok via Kabin. This fact alone throws considerable doubt on the report as it would probably require twenty days to reach Kabin from Battambang during the present season. We should certainly say that such an act of high-handed aggression on the part of the French is extremely unlikely."

GIRLS with red hair should never despair, nor deem themselves heavily handicapped, for to atone for the crimson frontlet is only a matter of time. "Carrots" nature with wise and wonderful discernment generally throws in a compensating quantity of brains. The Catherine who made Russia great had red hair; so had Maria Theresa, who saved Austria and made it the empire that it is; so had Anne of Austria, who ruled France for so long; so had Elizabeth of England and Catherine Browne, as well as Marie Antoinette, whose brown tresses had in them a glint of gold.

HONOR to whom honor is due. Says an American exchange:—"Miss Emily Howard was one of the directors of a bank in New York State, is the only woman in the world in a similar position." It is evident that the scribe who wrote the above knows nothing of our local bank directors or he would never have been so unjust as to state that Miss Emily Howard was the only woman director in the world. We have the honor of knowing several in Hongkong, and are not going to tamely submit to the proud brag of a Yankee leader that his country is the only one in the world that can produce women directors. Not much!

SE *transit gloria mundi*, and we are fit to die from disappointment arising out of a discovery that we made in Saturday's *China Mail*. Hitherto we thought that "Brownie" was "Bellyfloss" famous Jerusalem donkey, but alas he turns out to be a simple hand-barrow coolie. Listen to him, professionally orate—"That ten cent's worth of grease would make nearly every hand-barrow in the Colony run smoothly for a week. Now this is too bad, for not to be left behind in matters of enterprise by the *Snail* we had best effected the purchase of a 'cuddy' whom we fondly hoped would out-bray 'Brownie' every Saturday night. Such is life, and now we must add to the already heavy expenses of our establishment by negotiating for a barrow coolie. It is hard to successfully compete with the *Snail*, but it must be done, else Hercules John and others that like would die of envy."

THE Government *Gazette* of Saturday last publishes the minutes of a Sanitary Board meeting held on Friday the 4th September. It would be interesting to know what useful purposes were served by spending public money in a printing shop stale trash. And it would also be interesting to some rate-payers to know who edits these precious minutes. They are signed by Mr. J. H. Stewart-Lockhart—but whoever the genius may be, half-an-hour's consultation with our Office would do him an immensely good. One place of ridiculous affectation is especially conspicuous. No Chinese gentleman in this colony is better known than Mr. Woo Lin Yuen—who rarely goes to know how to spell his own name—and yet we find him described in these minutes as U Lin U. Foreigners who ape the Chinese classical style are in nine cases out of ten ponderous numskulls.

WE have always had a high regard for the manner in which Mr. A. G. Wise disposes of the cases that are brought before him at the Police Court, but even he, apparently, can be instructed. In the *Zabina Gendry* case "Brownie" says:—"That if the man who is said to have jumped overboard had put in an appearance in the witness-box, the aspect of the case might have been changed." Now why did not Mr. Wise regard the man from the police view and cause "the man who is said to have jumped overboard" to be placed in the witness-box?—for had he done so "Brownie" says that "the aspect of the case might have been changed." Solomon! Solomon! I saluted source from whence came our stunted knowledge, his well that thy glory is ascribed by antiquity, else it would be in danger of eclipse, for has not another, a better and a brighter dispensation of wisdom arisen, to enlighten the world? Great "Brownie," noble "Brownie," how we worship thy long ears.

SE SAI LING, comrade of the steamer *Ningpo*, was charged before Mr. A. G. Wise to-day with having attempted to smuggle opium into the colony. Inspector Quencey stated that he boarded the *Ningpo* and searched the defendants cabin in which he found a safe, and upon desiring to be better acquainted with the contents thereof, Mr. Ling protested that he had left the key in Shanghai. A threat, however, to take the whole "cabodol" authors was "the means of having the key produced. Upon opening the safe six tael of illicit opium were found. Defendant was fined \$30, which sum was promptly paid."

HAS Jehovah ordained that darkness should fall upon the land, or is it that Hongkong has become so poverty-stricken that the taxpayers cannot afford to have the clock-tower illuminated at night? Or is this fact the result of the deluge of wicked members of the Hongkong Club, who hope to sink off, forgetting and forgotten at the dusky hour of midnight after a lengthened carousal within the precincts of that benevolent institution? If neither of these hazards is correct, let the tower be lighted up by the electric glow that have had to "pass" the time-keepers (temporarily) owing to stress of circumstances. For a long time past we have trusted to the tower for signal to his homewards, and now that the face of the clock is as blank as the night's plutonian shore we feel lonely, like, and wonder what has come upon us.

IN confirming the death-sentence passed on Colston, late of the Hongkong Public Works Department, Chief Justice Highbottom said:—"Until this question is further discussed and simplified, and until a greater degree of unanimity is attained by those learned inquirers into the state of the mind in connection with the bodily conditions of human beings, which shall enable Parliament or courts of justice to arrive at and lay down a more exact test of insanity than now exists, I think that we ought to follow the broad general rule." And the broad general rule is to give the gallows the benefit of the doubt. However, it is understood that Colston's brain is to be carefully dissected, just for the satisfaction of the Law, although it will be all the same to the departed one.

## HE WENT OUT SHOOTING.

"You need not monkey with gun, it's all right," said our representative: "give me the cartridges and let me go. I'm in a hurry." "Well, den, I'll chesit do dem mit der backage up," replied the artificer in metals, "and dot vill gif me dime to tell a liddle story, alretty." "Um, from the reporter."

"So, it was last Sunday, which was bank holiday in der Hongkong and Shanghai Bank, but he gif himself a gun, and cabales dot he wishes to vent mit shooting some dings. Carcase Caesar's ghost, not a pounding I did git der feller then I got him by der neck. Dot makes my sides shpilly when I talk about it alretty."

"What did you pound the poor fellow for?" "Look here, po-y," I says to him "I vill allow you to vent mit shooting on conditions dot I gib der stuffing owd of you if you shall vonce point der barrel of dot gun anywhere at me; der whole dink; we are owd. Dot's all right," he says; "I'll bolt him at you; you can dose vot you vill to mit me. Veil, ve had not been mit minutes from der sempan owd, when he swings around so as to bolt exactly my neck, muzzle of his gun down. Right away, I lifted up on my boots mit der foot on der inside, and I gafe him some dings which occupied his mind by der way of der seat of his drawers, alretty."

"Vot's dot for?" he inquired. "You bolted vot by me dot gun, I say." "Veil, it ain't loaded." "Ain't loaded," I shouted. "Grosser Himmel! dot's vot for I kicked you. Dose guns which dot got loaded are der only vone which are dangerous. All der bodies which got dangerous killed mit gun in dimes of beads are all der dime, getting shot mit unloaded vuns." (Dot's when I began pounding him.) "You catches," I say, "I gif der gun vos loaded till der powder vos running owd of I, I wouldn't care vot you dose mit it, but if you shall ever bolt an unloaded gun mit me again, and I don't got killed, by Chimney Hokey, I'll make you swallow der barrel."

He dot in der *Dilegraph* baper, alretty," said the Smith, "and may be beoples vill find some dings owd, ain't it?"

## NEWS BY THE AUSTRALIAN MAIL.

The E. & A. Co.'s steamer *Guthrie*, Capt. Helms, from Sydney, via Australia ports of call and Dilly (Timor) arrived in harbour this morning. We had the following telegrams in our exchanges:—

IN answer to the complaint of the Chinese Government against German co-operation with the Powers, the *Norik German Gazette* says that German misdeeds and trade have suffered from the recent disturbances.

August 21st.  
Italy has joined the other Powers in the measures that are being taken to coerce China with a view to increased protection to foreigners in China.  
The American Secretary of State has declared that though he received assurances from the Emperor of China that he would grant redress for the outrages inflicted on American subjects in China, yet the United States Government had determined to send every man-of-war of the Pacific Squadron to co-operate with the vessels of the European Powers.

A special commission appointed to inquire into the state of the finances of Mayil has reported that there exists a fraudulent deficit of \$200,000 dol. The members of the Cabinet are to be prosecuted for the fraud.

FIVE HUNDRED DOLLARS REWARD.

A REWARD of \$500 will be paid to any person supplying information that will lead to the discovery and identification of a Chinese girl named LI AFAT, who, in or about the month of September, 1888, was resident at St. Francis Street, Wanchai, in the house of JOHN MINNINETT, an overseer in the Hongkong Public Works Department, under the protection of a Chinese kept woman named WONG AH NGAN.

LI AFAT is about 10 years of age, and according to a declaration made by WONG AH NGAN at the Magistracy, she was returned to her mother about three years ago—presumably to some village in the Kwangtung Province, where it is stated she died a short time afterwards.

On the other hand JOHN MINNINETT deposed on oath in the Supreme Court that LI AFAT was sold by WONG AH NGAN and that he was present in his own house when the purchase money was paid; and it has since been reported that the girl was taken to Singapore for immoral purposes.

A Reward of \$500 will be paid to any person who shall produce reliable evidence, showing that LI AFAT was returned to her mother, in or about September, 1888, and afterwards died as alleged.
